

# Online Learning Alternatives: D2L Quizzes can be used for Examinations

This Job Aid presents online learning alternatives for examinations using D2L Quiz Tools:

## D2L QUIZ TOOLS

D2L quiz tools enable Instructors to create a wide selection of points-based question types ranging from **multiple choice questions, true/false, fill-in-the-blank, matching, and written responses**. You are able to create a quiz that has a variety of quiz question types and mixture of lower and higher-level questions that elicit application, integration, and evaluation.

Remember you can 'create a test quiz' in the UCVM Sandbox course (<https://d2l.ucalgary.ca/d2l/home/11251>), if you are wary about testing this function in your active courses. Please email Kevonne Kerr if you need access.

## SOLUTIONS TO STOP CHEATING IN QUIZZES:

<https://community.brightspace.com/s/article/Using-Brightspace-to-Stop-Cheating>

Online quizzes are great! They are a quick and easy way to assess recollection and identification of key ideas; not to mention, they ease the marking burden too! Brightspace by D2L, provides easy-to-use features for managing your online tests and quizzes, yet many faculty remain suspicious of online quizzes as a viable assessment tool. One major roadblock standing in the way is the perception that technology increases the ease of cheating. While academic dishonesty is an ongoing challenge, we needn't give-up on online quizzes. The Brightspace platform provides some valuable tools which, when combined with the following practices, can help reduce the allure of cheating:

- ❖ Randomizing Questions
- ❖ Recognize Collaboration
- ❖ Keep the time tight
- ❖ Make the questions tough
- ❖ Use Multimedia Features

If you need any additional information or have any technical questions, please do not hesitate to contact:
