

IN LOVING
Memory
Enya

Enya has been with our whole family through so many changes and events in our lives for the last 16 years. She was a rescue from Whiskers Cat Rescue. Enya, this quiet little grey cat with stubby legs, and a spunky spirit, was always this comforting presence through everything, thick and thin, making us smile, and so much a part of daily life that one could easily forget how important she was to us. I am glad she crossed the Rainbow Bridge surrounded by everyone who loved her, including our vet Dr. Claire Legere and aide Audrey, in the backyard forest and garden she loved so much to have supervised time in; and that an abandoned little street cat got to have a long and pampered life with us. We are deeply thankful for all that she gave us. I trust that she is with the Creator now, and safe with her friend, our dog, Guinness.
