

### **Summer Student Opportunity: Laboratory Animal Medicine - UCARE**

We are searching for a highly motivated and enthusiastic summer student (3rd or 2nd year DVM student preferred) to work in our Laboratory Animal Medicine UCARE veterinary practice at the University of Calgary.

In addition to gaining valuable experience in Laboratory Animal Medicine and Science, this student will assist creating and collating important instructional materials for Animal Welfare Assessment training for research teams. Training materials will pertain to several common lab species of animals.

In conjunction with interest in laboratory animal veterinary medicine we require a person with excellent written and verbal communication abilities and strong interpersonal skills. Anticipated salary is \$2500 per month for the 4 summer months (May 4th to approximately August 28th). DVM

Students interested in this opportunity should provide an application letter, their *curriculum vita*, and two professional references to:

Dr. Doug Morck, University Veterinarian & Professor UCalgary (dmorck@ucalgary.ca\_

Applications close: January 31, 2026, or when a successful candidate is selected.
