IN LOVING  
*Memory*  
**MANDY**

Mandy was our calm grounded lady; we adopted her from Meow foundation. She was found on the street with baby kittens, herself hardly being 8 months old. Her babies were gone and she was left behind. We loved her from the first moment as she was so fragile and shy. She was trembling when someone touched her. But over time she found her home at our place, bouncing around in the back yard chasing flies or entertaining herself with the bird feather toy wand used by my daughter to keep her busy.

We will remember her with gratitude for all the joy and happiness she shared with us. May she find peace.
