EQUIPMENT – Research, Education, Outreach

*All biosecurity practices for activities and equipment must be approved by ranch management prior to visiting the ranch

- Will equipment be in livestock housing/handling areas, or livestock equipment (e.g. feeders)?
  - YES: Will equipment be in contact with animals?
    - YES: Wash and disinfect equipment before arrival and after use
    - NO: Has equipment been used for “dirty” tasks (e.g. manure, deadstock)?
      - YES: Apply sanitary procedures (wet cleaning) to equipment before arrival and after use
      - NO: Ensure equipment is visibly cleaned from all organic matter and debris prior to entry

- Anything in animal areas, but not in direct contact
- Anything not previously used for dirty tasks and/or not in animal areas

- Anything in contact with animals
