Step 1

Planning the Research Idea

+ TIMELINES

**All plans/activities should be discussed/approved with ranch director and management. Researchers should be aware of ranch policies (e.g. biosecurity, hazardous materials, work alone) and align all research planning/actions with these policies.

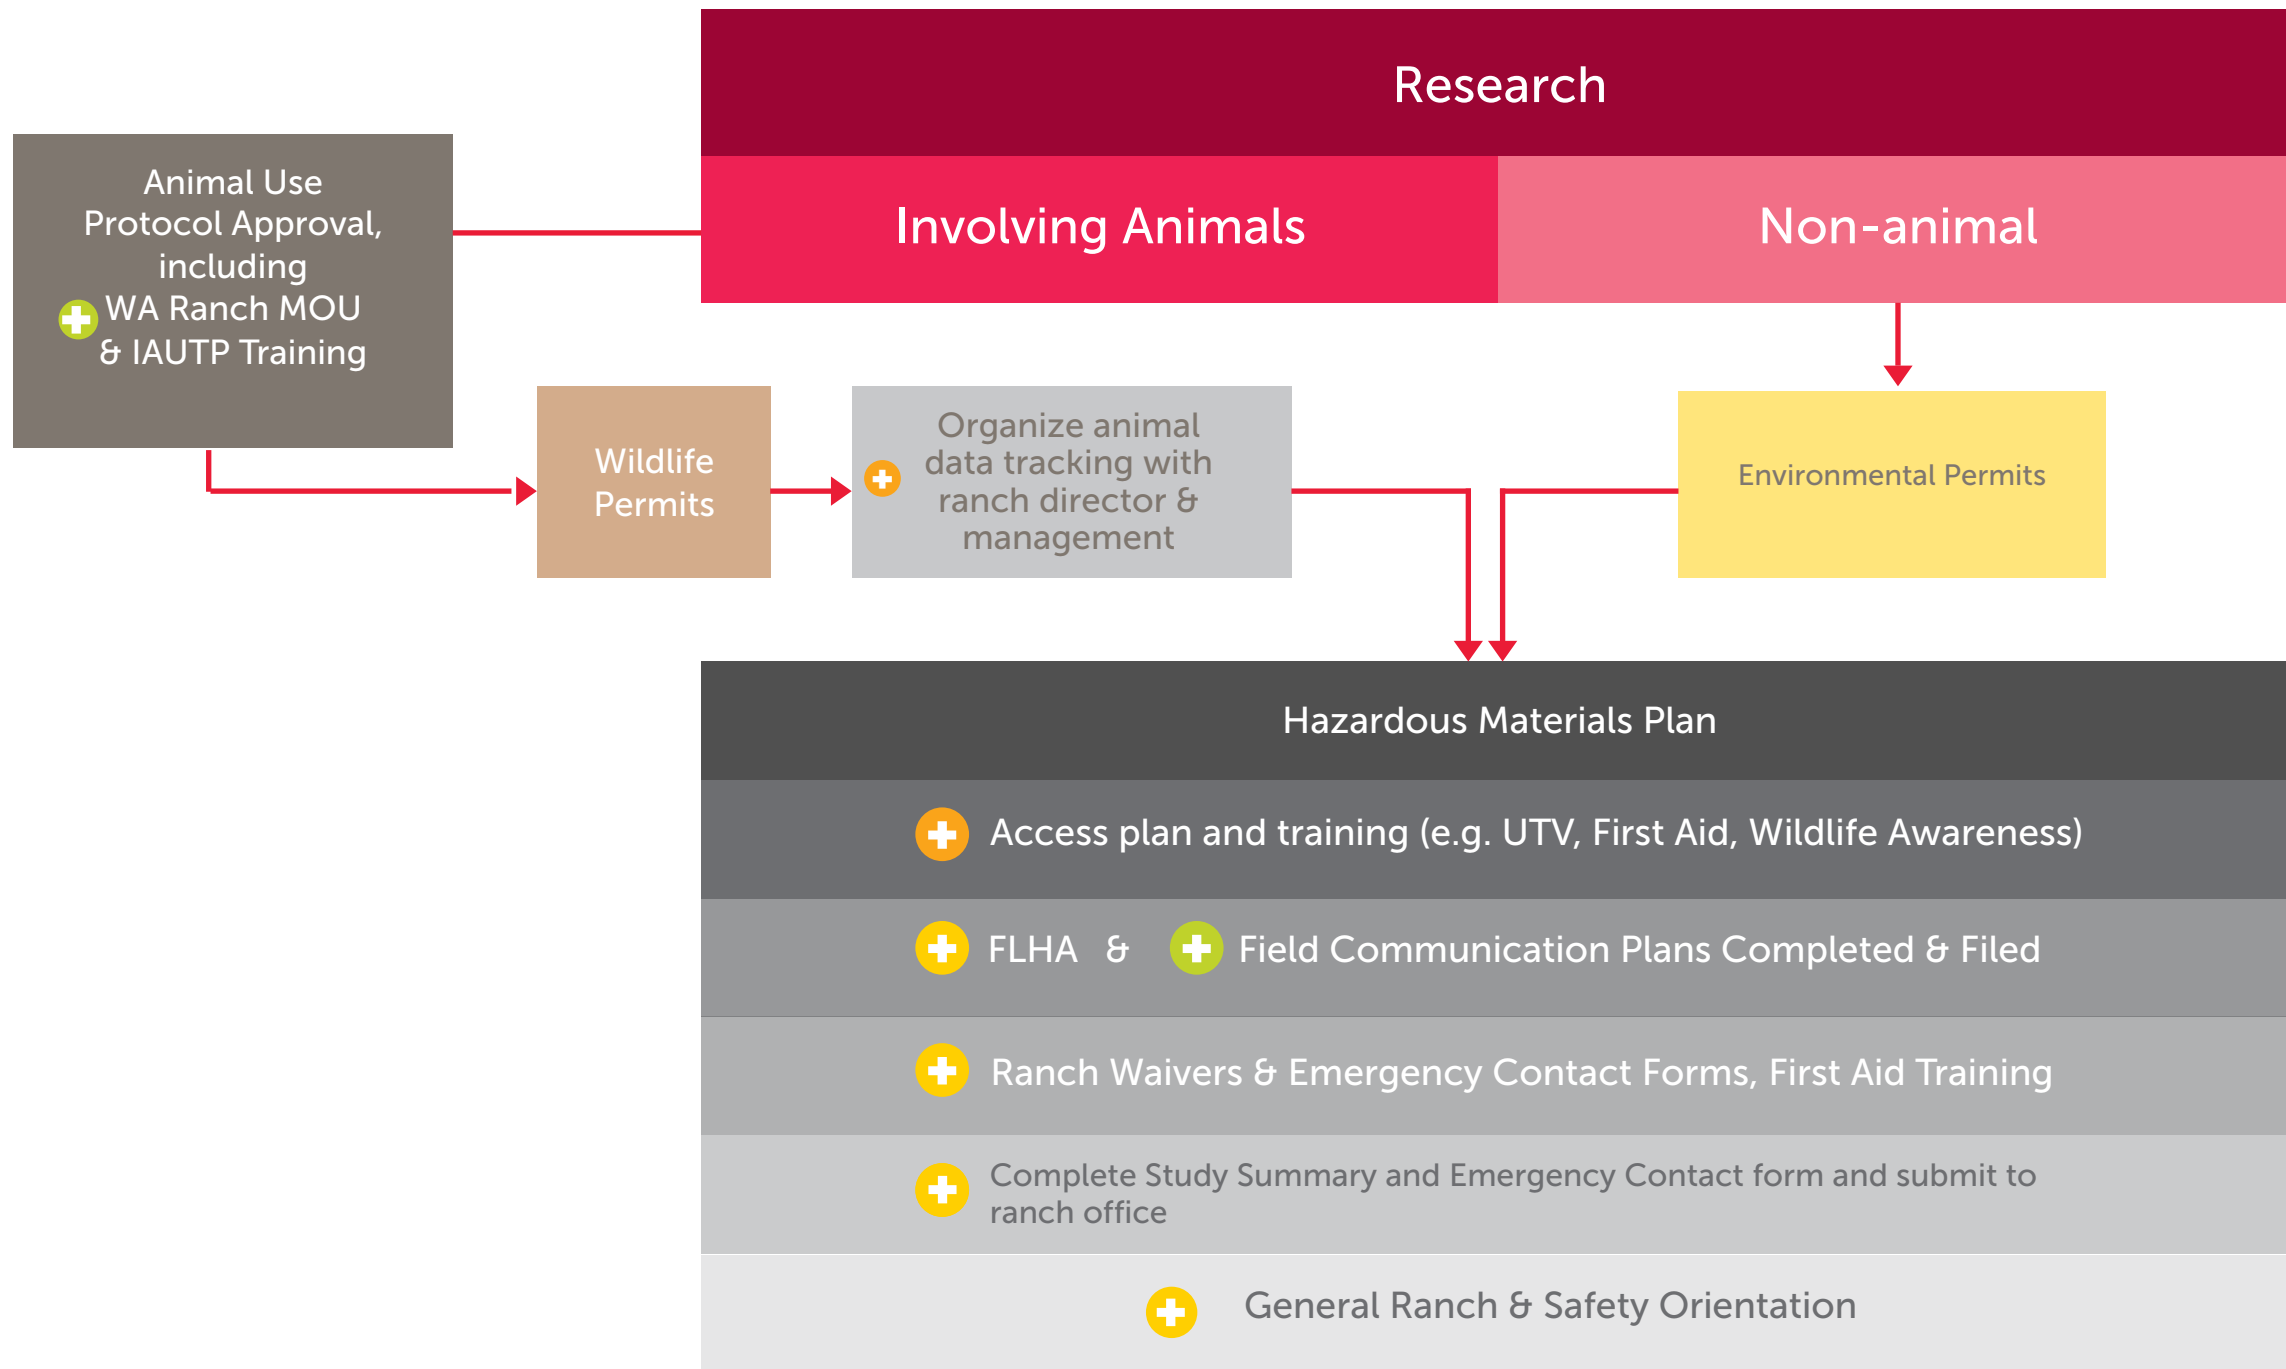

Step 2

Preparing for an Approved Project

 **TIMELINES**

****All plans/activities should be discussed/approved with ranch director and management. Researchers should be aware of ranch policies (e.g. biosecurity, hazardous materials, work alone) and align all research planning/actions with these policies.**

Step 3

Doing work at Ranch

+ TIMELINES

**All plans/activities should be discussed/approved with ranch director and management. Researchers should be aware of ranch policies (e.g. biosecurity, hazardous materials, work alone) and align all research planning/actions with these policies.

+ Follow Biosecurity Protocols

Communicate with ranch management (check in/out daily)

+ Stay aligned with ranch policies

+ Report outcomes
