

IN LOVING  
*Memory*  
**Sadie Cyclone**

Greg reached down into the bottom of the snuggle puddle of kittens at the Cochrane Humane Society just over 11 years ago and our lives changed.

Then he looked again, and said “Why have one when we can have two!” and reached in to get her brother.

The naming was fun. We decided to keep their shelter names as their middle names and came up with Sadie Cyclone (did you know there was a cyclone in Australia in the 60’s named Sadie?) and Harley Hurricane (because he purred like a Harley). Over the years she became the queen of our world and that did not come without a generous amount cat-itude! We will always miss this beautiful, feisty little soul – especially Harley, and we always have a spot for her in our hearts.
